### Joseph Jackson – Branch Chief, Tactical Multi-Site Support and Systems Pricing Group, Army Contracting Command, Detroit MI

Mr. Joseph Jackson is Branch Chief for the Tactical/Multi-Site Support and Systems Pricing Group in the Army Contracting Command – Detroit (ACC-DTA) at the Detroit Arsenal. In this capacity, he is responsible for Joint Light Tactical Vehicle (JLTV), High Mobility Multipurpose Wheeled (HMMWV), Family of Heavy Tactical Vehicles (FHTV), Family of Medium Tactical Vehicles (FMTV), Depots and Arsenals which include Construction Projects, Facility Upgrades, Technology Upgrades and Manufacturing Equipment/ Tooling as well as a Technical Pricing team for all of ACC-DTA

Mr. Joseph Jackson deployed to the Army Corp of Engineers, Kansas City, MO as a member of the COVID-19 Crisis Management team as the Deputy Chief of Contracting Office and Branch chief of Business Operations. He provided senior level employees recommendations regarding policies and program guidance during the COVID-19 pandemic emergency. He was responsible for supporting all the contract efforts to support the Corp of Engineers in the Northwest Missouri region. Additionally he is responsible for the operations of the contracting and accomplishment of the strategic goals.

ACC-DTA ensures warfighting readiness for the Soldier by providing contracting and acquisition support for ground combat, tactical vehicles, small arms, chemical/biological systems, and associated services. It is comprised of more than 600 civilian and military personnel located at six geographic sites. Mr. Jackson became the Chief in the MRAP/Force Projection/Armaments/DTA Pricing Group in September 2011. Prior to this assignment he served as the Chief of Pricing for the Deployment Support Division and before that he served in a number of Program Management leadership roles, including Alpha Contracting Leader for Future Combat Systems with the Army and Cruise missile engines and engineering services while employed with Williams International. Pricing Leader for the Future Combat System.

Mr. Jackson started his career at TACOM in October 1982 as a Supply Clerk Co-op Student in the Logistics Division. He worked in various pricing positions including work on the AGT 1500 engine and X1100 transmission for the M1 Abrams Tank until June 1990 with the Army when he received cost estimating job at Cadillac Gage Textron. Mr Jackson also worked as a senior Cost/Price analyst for Parker Aerospace.

Mr. Jackson is a high performing employee with 30 years of experience with the Army and 12 years in private defense industry experience. He has 42 years of experience in the pricing field and 5 years in program management. He holds a Master of Business Administration degree from Oakland University (1989) and a Bachelor of Science degree in Economics from Oakland University (1984). He is Level 3 in Contracting and is also a member of the Acquisition Corps. He received the AMC Small Business Program Award in 2001.

**TSGT James Pitcher – Lead Contract Management Federal Programs, Scale AI**

The Scale Generative AI Platform leverages enterprise data to customize powerful base generative models to safely unlock the value of AI. The Scale Data Engine consists of tools and features to collect, curate, and annotate high-quality data, in addition to robust tools to evaluate and optimize models. Scale powers the most advanced LLMs and generative models in the world through world-class RLHF, data generation, model evaluation, safety, and alignment.

Scale is trusted by leading technology companies like Microsoft and meta, enterprises like Fox and Accenture, Generative AI companies like Open AI and Cohere, U.S. Government Agencies like the U.S. Army and the U.S. Airforce, and Startups like Brex and OpenSea.

## 10<sup>th</sup> Annual DoD Contractor Update - Biographies

**Sean Ketter – Vice President, Global Procurement & Supply Chain,  
Oshkosh Corporation**

Sean Ketter is responsible for overall supplier performance, supply chain compliance, risk management and technology for Oshkosh Corporation. Sean leads the creation and deployment of common processes to understand and improve how Oshkosh Corporation and its global supply base work together. Sean is also leading a global effort to develop a more intelligent supply chain focusing on people, processes, and technology.

Since joining Oshkosh Corporation in 2006, Sean has led successful initiatives such as launching the Oshkosh Supplier Network (OSN), the historic M-ATV supplier launch in 2009, the introduction and adoption of advanced quality planning, the startup of the JLG Tianjin facility, the development of the GPSC Supplier Academy and oversaw the supply chain operation for Oshkosh Corporation's newest facility in Leon, Mexico. He is currently leading the largest process and technology modernization initiative in the company's history.

Before joining the company, Sean served in various roles with John Deere. Positions included Strategic Sourcing, Product Development, Quality and Supplier Development. Sean holds a bachelor's degree in Industrial and Systems Engineering and a master's degree in manufacturing systems Engineering both from the University of Wisconsin at Madison.

Sean serves as a member of WEDC's Transformational Productivity Initiative (TPI) steering committee, is an executive board member of the University of Wisconsin School of Business' Erdman Center for Operations and Technology Management and serves on the board of directors for the Wisconsin Procurement Institute.

## 10<sup>th</sup> Annual DoD Contractor Update - Biographies

### **Buckley Brinkman – Executive Director/CEO, Wisconsin Center for Manufacturing & Productivity**

Buckley Brinkman Executive Director/CEO Wisconsin Center for Manufacturing & Productivity Leading the organization since June 2011, Brinkman brought more than 25 years of transformational manufacturing leadership to WCMP, with a breadth of experience in helping companies drive growth, world-class competitiveness and performance excellence. Experienced in Lean, Six Sigma, supply chain management and turnaround planning, he led efforts to save dozens of operations in the U.S. by finding new ways for them to compete.

Throughout his career, Brinkman provided executive leadership to companies ranging from \$5 million to more than \$4 billion in sales. He revived the North American operations of the world's largest playing card company, led the turnaround of a prominent trade bindery, and catalyzed the profitable turnaround of a recycled paperboard mill. Brinkman is an industry thought leader who has authored several white papers on innovation, corporate culture, business strategy and other topics.

Brinkman served as president and chief operating officer of U.S. Music Corp., an Illinois-based musical instrument manufacturer; as chief operating officer of Minneapolis-based Manchester Companies, where he received the Turnaround of the Year award for his work with a medical device manufacturer; and as president of Vallon, LLC, a Minneapolis-based interim executive placement firm. Most recently, he served as executive director and CEO of the Wisconsin Manufacturing Extension Partnership (WMEP).

A Wisconsin native, Brinkman holds a Business degree from the University of Wisconsin and an MBA from the Harvard Business School.

The Wisconsin Center for Manufacturing and Productivity (WCMP) engages with partnerships and initiatives at the local, state, and federal levels. We continually provide the best available support and resources to help manufacturers reach their goals. Collaborating with the UW-Stout Manufacturing Outreach Center (MOC) and the Wisconsin Manufacturing Extension Partnership (WMEP), the WCMP helps small and medium-sized manufacturers across the state grow and thrive in an increasingly challenging business environment. The WCMP continues to adapt to changing conditions by identifying and evaluating our optimal mix of partners and the roles they play: strategic, operational and/or financial. Successful partnerships align with the WCMP in resource expectations, desired outcomes and key success metrics.
